

POSTERS

Tuesday, November 28

- 1 Fragmentary myoclonus in idiopathic rapid eye movement sleep behavior disorder**
J. Nepožitek, S. Dostálová, D. Kemlink, L. Friedrich, I. Příhodová, V. Ibarburu, K. Šonka
- 2 Brain signals at multiple spatial scales of observation may encode different information**
J. Hammer, M. Tomášek, P. Kršek, P. Marusič, A. Schultze-Bonhage, T. Ball
- 3 Gender differences in changes of interoceptive sensitivity after painful stimulation**
A. Yamamotová, A. Morozová, K. Geier
- 4 Evaluation of acetylcholinesterase and nitric-oxid synthase inhibitions of tacrine-tryptophan hybrids potentially aimed for the treatment of Alzheimer disease**
J. Ríčný, D. Kaping, J. Korábečný, K. Kuča, O. Soukup, K. Špilovská, Z. Krištofiková
- 5 Occurrence of tau-reactive antibodies and tau oligomers in blood of cognitively normal individuals**
M. Krestová, L. Hromádková, U. Sengupta, Z. Bílková, R. Kayed, A. Bartoš, J. Ríčný
- 6 Kinase-loaded magnetic carriers for sequential in vitro phosphorylation of tau protein**
L. Hromádková, R. Kupčík, E. Štovíčková, M. Slováková, Z. Bílková
- 7 Mediator system of NMDA receptor – nitric oxide and acute sleep deprivation**
J. Šírová, Z. Krištofíková
- 8 Effect of MK-801 and midazolam on hippocampal lesions induced by NMDA infusion**
L. Uttl, V. Kútina, L. Kletečková, K. Valeš
- 9 Comparison of effects of intrahippocampally and intraperitoneally applied acetylcholinesterase inhibitor tacrine on scopolamine-induced memory deficit in rat**
M. Chvojková, L. Kletečková, A. Stuchlík, V. Lobellová, O. Soukup, J. Korábečný, K. Valeš
- 10 The impact of neonatal methamphetamine on spatial learning and memory of females in adulthood**
I. Hrebíčková, M. Ševčíková, R. Šlamberová
- 11 Long-term methamphetamine effect on brain cortex perfusion in laboratory rat**
I. Matějková, K. Bernášková, M. Spudilová, M. Čihař, R. Šlamberová
- 12 Paternal methamphetamine exposure affects development of rat offspring**
L. Mihalčíková, A. Ochozová, R. Šlamberová
- 13 The effect of prenatal methamphetamine exposure on adult male rat cognition and behavior in unknown environment**
A. Ochozová, L. Mihalčíková, A. Yamamotová, R. Šlamberová
- 14 The effect of THC and single injection on behavior of adult male rats in unknown environment**
R. Šlamberová, K. Nohejlová, A. Ochozová, L. Mihalčíková
- 15 Study of cortical activity by two-photon Ca2+ imaging at mouse model of tinnitus**
A. Brunová, O. Zelenka, N. Rybalko, O. Novák, F. Tomáška, J. Syka, R. Tureček
- 16 Overexpression of Isl1 under Pax2 promoter results in impaired sound processing and increased inhibition in the inferior colliculus.**
D. Kuchárová, T. Chumak, G. Pavlínková, J. Syka

- 17 Fischer 344 rats as an animal model of metabolic presbycusis**
J. Popelář, Z. Balogová, F. Chiumenti , T. Chumak, J. Burianová, N. Rybalko, J. Syka
- 18 Experimental auditory tests for diagnostics of different types of presbycusis**
V. Svobodová, O. Profant, M. Jilek, Z. Bureš, V. Vencovský, D. Kuchárová, J. Syka
- 19 Morphology of neurons in the central auditory system of adult rat is affected by postnatal exposure to an acoustically enriched environment.**
J. Svobodová Burianová, J. Syka
- 20 Behavioral assessment of hearing function in the presence of background sound in rats exposed to noise as juveniles**
D. Šuta, N. Rybalko, K. Pysanenko, T.-W. Chiu, J. Syka
- 21 Disrupted development of glycinergic inhibition at the calyx of Held synapse in rat after bilateral cochlear ablation.**
B. Hrušková, J. Trojanová, M. Králíková, J. Bartošová, J. Burianová, Š. Suchánková, J. Popelář, J. Syka, R. Tureček
- 22 Mice lacking GABAB receptor auxiliary subunit KCTD12 exhibit impaired hearing and increased incidence of tinnitus**
N. Rybalko, K. Pysanenko, Š. Suchánková, B. Hrušková, B. Bettler, R. Tureček
- 23 The role of Bral2 link protein on diffusion parameters of extracellular space and perineuronal nets in the auditory system during aging**
P. Suchá, M. Chmelová, M. Kamenická, M. Bochin, L. Vargová
- 24 Embryonic draft development in Lurcher mice**
J. Cendelín, Z. Purkartová, E. Porras-García, E. Ulbricht, J. Kubík, Y. Kolinko
- 25 Neonatal lipopolysaccharide-induced neuroinflammation and immune and behavioural response in adult rats.**
H. Tejkalová, P. Kačer, J. Klaschka, Jiří Horáček
- 26 Neurosteroids are more potent inhibitors of NMDA receptors after increased intracellular Ca2+ concentration**
P. Hubálková, M. Ladislav, V. Vyklický, L. Vyklický
- 27 The importance of plasma membrane cholesterol for the proper function of excitatory synapses**
M. Kořínek, I. M. Gonzalez-Gonzalez, T. Smejkalová, M. Horák, L. Vyklický
- 28 Molecular insight into the NMDA receptor channel gating: the role of LILI motif of M3-S2 linkers**
M. Ladislav, J. Černý, J. Krůšek, M. Horák, A. Balík, L. Vyklický
- 29 IDENTIFICATION OF STRUCTURAL MOTIFS CRITICAL FOR 5β--PREGNAN--20-ON-3-α--YL-2'-BUTIRYC ACID-INDUCED POTENTIATION OF N-methyl-d-aspartate Receptors**
B. Kysilov, B. Krausová, V. Vyklický, T. Smejkalová, A. Balík, M. Kořínek, M. Ladislav, P. Hubálková, M. Horaák, M. Nekardová, H. Chodounská, E. Kudová, J. Černý, L. Vyklický
- 30 In Vivo thermography measurement of diathermy lesion in neurosurgery**
R. Janča, P. Ježdík, A. Jahodová, M. Kudr, V. Komárek, M. Tichý, P. Kršek

Wednesday, November 29

- 31 Effect of social isolation and age on expression of NMDA receptor subunits in rat brain**
M. Vrajová, K. Čechová, J. Klaschka
- 32 Cerebral lesions in the Eker rat model**
V. Kútka, L. Uttl, R. Waltereit, D. Kaping
- 33 Developmental study in the Eker rat model of autism**
T. Petrásek, I. Vojtečhová, O. Klovra, D. Kaping, R. Waltereit
- 34 The role of the hippocampus in 2D object discrimination based on visual features**
D. Levčík, T. Nekovářová, E. Antošová, A. Stuchlík, D. Klement
- 35 Analysis of neurotransmitter levels in the anterior cingulate cortex in an animal model of OCD-like checking behavior induced by quinpirole sensitization**
D. Radostová, O. Kuda, H. Brožka, A. Stuchlík
- 36 An animal model of OCD based on early postnatal treatment with clomipramine: effects on behavior and adult neurogenesis**
G. Valigová, H. Hatalová, A. Stuchlík
- 37 When pregnant rat female becomes ill: effect on offspring behaviour**
I. Vojtěchová, K. Malenínská, T. Petrásek, K. Valeš, A. Stuchlík
- 38 Effect of application of mGluR 2/3 agonist LY 379268 on a cognitive deficit induced by MK-801**
K. Malenínská, K. Hrůzová, A. Stuchlík
- 39 8-OH-DPAT sensitization in an animal model of OCD leads to permanent changes in learning**
K. Mainarová, A. Stuchlík, M. Janíková, D. Radostová, H. Brožka
- 40 Processing spatial information relative to a moving object in the “enemy-avoidance task” in rats**
N. Ahuja, V. Lobellová, E. Kelemen, A. Stuchlík
- 41 Protective effect of cognitive training during adolescence on neuronal coordination deficit in a pharmacological model of schizophrenia**
B. Krajčovič, H. Buchtová, I. Fajnerová, A. Stuchlík, Š. Kubík
- 42 Electrophysiology of Perspective Taking**
I. Fajnerová, T. Nekovářová, M. Tomášek, J. Hammer, P. Jiruška, P. Marusič, K. Vlček
- 43 Precise timing of brain activity during distance estimates measured by intracerebral electrodes in human**
K. Vlček, I. Fajnerová, T. Nekovářová, L. Hejtmánek, J. Hammer, M. Tomášek, P. Marusič
- 44 Induced memory trace instability in rat hippocampus**
Š. Kápl, F. Zitrický, K. Ježek
- 45 Roles of A1 adenosine receptors and adenosine kinase in hippocampal excitability during brain development in rats**
P. Fábera, M. Pařízková, L. Uttl, H. Kubová, G. Tsenov, P. Mareš

- 46 Behavioral assessment of rats with epilepsy in standard tests and in a complex environment**
A. Mikulecká, M. Kučera, H. Kubová
- 47 Role of inflammatory mechanisms in seizures development in models of perinatal brain insult**
K. Vondráková, P. Fabera, L. Uttl, P. Kačer, H. Kubová, G. Tsenov
- 48 Blood-brain barrier disruption after cerebral ischemia spatially exceed ischemic core**
D. Kala, J. Svoboda, A. Litvinec, A. Pošusta, J. Lisý, V. Šulc, A. Tomek, P. Marusič, P. Jiruška, J. Otáhal
- 49 Evaluation of blood brain barrier disruption after cerebral ischemia in mice**
J. Svoboda, D. Kala, A. Litvinec, P. Jiruška, J. Otáhal
- 50 Proliferation and differentiation of NG2-glia following different types of brain disorders**
D. Kirdajová, P. Honza, H. Pivoňková, H. Matušková, D. Koleničová, M. Anděrová
- 51 Age-related changes in astrocyte swelling and their volume regulation**
D. Koleničová, J. Turečková, D. Kirdajová, B. Eliášová, J. Kriška, L. Valihrach, M. Kubišta, M. Anděrová
- 52 The Wnt/β-catenin signaling pathway alters the differentiation potential of neonatal and adult neural stem/progenitor cells in vitro**
J. Kriška, T. Knotek, L. Janečková, O. Butenko, D. Koleničová, D. Džamba, P. Honza, Z. Nahacka, L. Anděra, V. Kořínek, M. Anděrová
- 53 TRPV4 channels contribution to astrocyte volume regulation and brain edema formation**
H. Pivoňková, D. Kirdajová, M. Chmelová, Z. Hermanová, P. Suchá, T. Awadowa, J. Malínský, D. Jirák, A. Galisova, L. Valihrach, D. Zucha, M. Kubišta, L. Vargová, M. Anděrová
- 54 Astrocyte volume regulation during the progression of Alzheimer's disease**
J. Turečková, D. Koleničová, B. Eliášova, J. Kriška, M. Valný, P. Honza, L. Valihrach, M. Kubišta, M. Anděrová
- 55 Modified injectable thermoresponsive hydrogels in spinal cord injury**
K. Kárová, I. Machová - Urdzíková, M. Vetrik, M. Hrubý, P. Jendelová
- 56 Dynamics of spinal cord injury in vivo using two-photon microscopy**
B. Slobodová, O. Zelenka, P. Jendelová
- 57 The effect intrathecal application of mesenchymal stem cells and their CondM in the treatment of amyotrophic lateral sclerosis**
M. Šeneklová, S. Forostyak, E. Syková, P. Jendelová
- 58 The effect of hWJ-MSCs in spinal cord injury treatment is dose-dependent and can be facilitated by repeated application**
P. Krůpa, J. Růžička, L. Machová-Urdzíková, I. Vacková, P. Jendelová
- 59 Combination of hyaluronic acid hydrogel and Wharton's jelly-derived mesenchymal stem cells for spinal cord injury repair**
K. Závišková, D. Tukmachev, J. Dubišová, I. Vacková, A. Hejčl, J. Bystroňová, R. Sulaková, M. Pravda, S. Kubínová
- 60 Purinergic modulation of GABA-ergic transmission in the supraoptic nucleus during intense hormone secretion**
M. Ivetič, H. Zemková
